(1) Statistics on work stoppages include all strikes and lockouts whether legal or illegal, which last for one-half day or more and amount to 10 or more person-days of time lost. Time lost by workers indirectly affected, such as those laid off because of a work stoppage by other employees, is not included. Data are published 45 days after the end of reference month. - Les statistiques sur les arrêts de travail comprennent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés n'est pas compris. Les données sont publiées 45 jours civils après la fin du mois de référence.

(2) The total includes all work stoppages. The agriculture, forestry, fishing and trapping, finance, insurance and real estate and public administration and defence industries are not shown separately. Should strikes occur in these industries, the time lost also will be shown in the total. - Le total tient compte de tous les arrêts de travail. L'agriculture, les forêts, les pêches et le piégeage, les finances, les assurances, les affaires immobilières ainsi que l'administration publique et la défense, ne sont pas indiquées séparément. S'il y avait eu des grèves dans ces industries, les journées perdues auraient également été comprises dans le total.

Note: These fixed-weighted series are generally larger than the variable-weighted series in Table 2.12 because they apply to all employees rather than just hourly-rated employees. For details on how these fixed-weighted indexes are constructed see the article in the September 1989 issue of the CEO. Contact: P. Smith (951-9158).

Nota: Ces séries à pondération fixe sont dans l'ensemble plus élevées que les séries à pondération variable du tableau 2.12 parce qu'elles couvrent tous les salariés et non pas seulement les employés rémunérés à l'heure. L'article de l'édition de septembre 1989 de L'O.E.C. décrit en détail la construction de ces indices à pondération fixe. Personne ressource: P. Smith (951-9158)

(1) Retail sales estimates exclude the Goods and Services Tax (GST). Prior to January 1991, sales data included the Federal Sales Tax (FST). Due to this change in indirect taxes, data for 1991 are not strictly comparable with those of previous years. For users interested in deriving comparable data, an estimate of the amount of FST included in sales for 1990 is available.

(1) Les estimations des ventes de détail excluent la taxe sur les produits et les services (TPS). Les données sur les ventes antérieures à janvier 1991 incluent la taxe de vente fédérale (TVF). Du à ce changement dans les taxes indirectes, les données pour 1991 ne sont pas tout à fait comparables à celles des années précédentes. Pour les utilisateurs intéressés à calculer des données comparables, une estimation du montant de la TVF inclus dans les ventes pour 1990 est disponible.

Your guide to understanding Canada's economy

The structure of Canada's economy can seem difficult to understand. What do we produce? How do we produce it? Who buys it, and who sells it? Statistics Canada's new publication, the GUIDE TO THE INCOME AND EXPENDITURE ACCOUNTS, addresses these puzzling issues and explains how the Income and Expenditure Accounts (IEA) will enrich your understanding of our economic system.

At the centre of macroeconomic analysis and policy-making in Canada, the IEA show how various groups like households, businesses and governments raise revenue and expend it to purchase goods and services. Together the IEA afford an opportunity to assess the performance of the national and provincial economies.

Developed for both economic specialists and general users, the *Guide* is the first in a series that will fully document Canada's system of national and provincial accounts. In four concise chapters, the *Guide* examines a comprehensive range of topics, including:

- Who uses the IEA and for what purposes
- The role of the IEA within Canada's System of National Accounts (SNA)
- The impact of the Historical Revision of 1986
- Why GDP, rather than GNP, is the central aggregate of the system
- The significance of the Sector Accounts to understanding how a modern economy functions
- The importance of Constant Price Estimates to both the IEA and the SNA
- How the GDP estimates are calculated
- How the quality and reliability of the IEA estimates are assessed

The *Guide* also presents dozens of tables to clearly illustrate theoretical examples and to help you fully understand technical aspects of the IEA.

For business strategists, students, economic analysts and current users of SNA data, the *Guide* is a must. Order the *Guide to the Income and Expenditure Accounts* (Cat.# 13-603E, No.1) for only \$35 in Canada, US\$42 in the United States and US\$49 in other countries. La structure de l'économie canadienne peut sembler difficile à comprendre. Que produisons-nous? Comment produisons-nous? Qui achète notre production et qui la vend? La nouvelle publication de Statistique Canada, GUIDE DES COMPTES DES REVENUS ET DÉPENSES, répond à ces questions difficiles et explique comment les comptes des revenus et dépenses (CRD) vous aideront à mieux comprendre notre système économique.

Les CRD se trouvent au coeur de l'analyse macroéconomique et des prises de décisions au Canada et montrent comment différents groupes, tels que les ménages, les entreprises et les administrations, se procurent leurs recettes et les dépensent en biens et en services. Ils permettent ainsi d'évaluer les résultats des économies nationale et provinciales.

Destiné aux spécialistes de l'économie comme au grand public, ce *Guide* est le premier ouvrage d'une série qui traite à fond du système de comptabilité nationale du Canada et des provinces. En quatre chapitres concis, le *Guide* aborde un éventail complet de sujets, dont :

- L'identification des personnes qui utilisent les CRD et dans quels buts
- Le rôle des CRD dans le système de comptabilité nationale du Canada (SCN)
- L'incidence de la révision historique de 1986
- Le remplacement du PNB par le PIB
- L'importance des comptes sectoriels pour comprendre le fonctionnement d'une économie moderne
- L'importance des estimations en prix constants pour les CRD et le SCN
- Le calcul des estimations du PIB
- L'évaluation de la qualité et de la fiabilité des estimations des CRD

Le *Guide* contient également des dizaines de tableaux afin d'illustrer clairement des exemples théoriques et de vous aider à comprendre parfaitement les aspects techniques des CRD.

Pour les stratèges des entreprises, les étudiants, les analystes de l'économie et les utilisateurs actuels des données du SCN, le *Guide* est une lecture qui s'impose. Commandez le *Guide des comptes des*

CANADA'S ENVIRONMENT

L'ENVIRONNEMENT DU CANADA

Every day you read news items about recycling, water pollution, industrial emissions or the depletion of the ozone layer. Unfortunately, these reports are often fragmented, making it difficult to get a complete picture of Canada's physical environment.

Human Activity and the Environment is written to help you understand the links between our population, socio-economic activities and our environment. You'll see, for example, how the purple loosestrife and zebra mussels are spreading throughout inland waters and the effect they have.

CASE STUDY: A statistical profile of an Ontario river basin is also included as a case study to demonstrate how socio-economic information can be linked with physical data at a local level.

Vous lisez tous les jours des articles traitant de recyclage, de la pollution de l'eau, des émissions de gaz industriels ou de la diminution de la couche d'ozone. Malheureusement, ces rapports sont trop souvent fragmentés et il devient difficile de se faire une parfaite idée de l'environnement physique du Canada.

Activité humaine et l'environnement est écrit afin de vous aider à comprendre les liens entre notre population, nos activités socio-économiques et notre environnement. Vous verrez, par exemple, comment les salicaires et les dreissna sont réparties à travers les eaux intérieures et quels en sont leurs effets.

ÉTUDE DE CAS : un profil statistique du bassin hydrographique de l'Ontario est également présenté, comme étude de cas, en vue de montrer comment l'information socio-économique peut être mise en rapport avec les données physiques à un endroit donné.

Organized in three, easy-to-read sections: Population, Socio-Economic Systems, and Environmental Conditions, this publication examines our activities from a number of perspectives:

- resource consumption
- waste generation
- monitoring the conditions of land, water, air and living organisms

This unique bestseller highlights such fascinating details as:

- purchases of potential pollutants by Canadian households
- the importance of natural resources to the Canadian economy
- energy consumption by industry

L'ouvrage est divisé en trois parties importantes : la population, les réseaux socio-économiques et l'état de l'environnement, qui examine nos activités sous différents angles:

- la consommation des ressources naturelles
- la production des déchets
- la surveillance de l'état des terres, de l'eau, de l'air et des organismes vivants

Ce best-seller unique met en relief des détails aussi fascinants que :

- les achats de polluants potentiels par les grandes maisons canadiennes
- l'importance des ressources naturelles pour l'économie canadienne
- la consommation d'énergie par industrie

From the most popular topics of the day — like employment, income, trade, and education — to specific research studies — like mineral products shipped from Canadian ports and criminal victimization in urban areas — you'll find it all here. We've even included a selection of key statistics from recent publications.

... the 1992 Statistics Canada Catalogue will help you get your bearings...

The Catalogue puts all this information at your fingertips. With the expanded index, you can search by subject, author or title — even periodical articles are indexed.

And for 1992, a separate index has been added for all our electronic products.

The Catalogue has everything you need to access all Statistics Canada's products:

- descriptions of over 80 new titles, plus succinct abstracts of the over 800 titles and 11 map series already produced;
- a preview of upcoming 1991 census products;
- easy ordering information to avoid delays;
- electronic products in a variety of media, and advice on getting expert assistance and on-line searches;
- tabs to each section — so you can immediately flip to the information you need.

... time and time again

To make sure that the Catalogue stands up to frequent use, we used a specially coated cover to prevent broken spines, tattered edges and dog-eared corners.

Nous avons même inclus une sélection des plus importantes statistiques provenant des plus récentes publications.

... le Catalogue de Statistique Canada 1992 vous aidera à vous orienter...

Le Catalogue vous met tous ces renseignements sous la main.

L'index augmenté vous permet de chercher par sujet, auteur ou titre — les articles de périodiques sont même indexés. Et pour 1992, on a ajouté un index séparé pour tous nos produits électroniques.

Le Catalogue a tout ce qu'il vous faut pour vous procurer les produits de Statistique Canada :

- descriptions de plus de 80 nouveaux titres et courts résumés des 800 titres et plus et des 11 séries de cartes déjà disponibles;

... maintes et maintes fois

Pour garantir que le Catalogue puisse résister à une utilisation fréquente, nous avons utilisé une couverture avec un revêtement spécial conçue pour éviter les dos cassés, les bords abîmés et les coins de page pliés.

(1) Statistics on work stoppages include all strikes and lockouts whether legal or illegal, which last for one-half day or more and amount to 10 or more person-days of time lost. Time lost by workers indirectly affected, such as those laid off because of a work stoppage by other employees, is not included. Data are published 45 days after the end of reference month. - Les statistiques sur les arrêts de travail comprennent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés n'est pas compris. Les données sont publiées 45 jours civils après la fin du mois de référence.

(2) The total includes all work stoppages. The agriculture, forestry, fishing and trapping, finance, insurance and real estate and public administration and defence industries are not shown separately. Should strikes occur in these industries, the time lost also will be shown in the total. - Le total tient compte de tous les arrêts de travail. L'agriculture, les forêts, les pêches et le piégeage, les finances, les assurances, les affaires immobilières ainsi que l'administration publique et la défense, ne sont pas indiquées séparément. S'il y avait eu des grèves dans ces industries, les journées perdues auraient également été comprises dans le total.

(1) Retail sales estimates exclude the Goods and Services Tax (GST). Prior to January 1991, sales data included the Federal Sales Tax (FST). Due to this change in indirect taxes, data for 1991 are not strictly comparable with those of previous years. For users interested in deriving comparable data, an estimate of the amount of FST included in sales for 1990 is available.

(1) Les estimations des ventes de détail excluent la taxe sur les produits et les services (TPS). Les données sur les ventes antérieures à janvier 1991 incluent la taxe de vente fédérale (TVF). Du à ce changement dans les taxes indirectes, les données pour 1991 ne sont pas tout à fait comparables à celles des années précédentes. Pour les utilisateurs intéressés à calculer des données comparables, une estimation du montant de la TVF inclus dans les ventes pour 1990 est disponible.

"Just one more thing..."

I received your recommendation - now I need the statistics to back it up."

Most of us have been in this situation more than once. Usually when there's something else that's pressing.

Now Statistics Canada offers you the **Guide to Statistics Canada's Programs and Products**. In one place, you'll find 550 pages of detailed information for 409 surveys and statistical programs covering just about every topic your boss could ever stump you with.

From *Absence from Work* through *Cable Television*, the *Mushroom Grower's Survey*, and *Traveller Accommodation*, to the *Wholesale Trade Survey* and *Zoos*. The **Guide** is your quick three-step solution to the "Just-one-more-thing" syndrome. All you have to do is:

- 1. Choose your topic.** The complete, cross-referenced index puts your finger on every survey covering your subject.
- 2. Choose your surveys.** Look up each survey to make sure it's relevant to your needs. The complete survey profile includes everything you need to know:
 - what data are collected
 - when the survey was done
 - who was surveyed
 - how often they are surveyed
 - and other relevant points that will help you find the survey or program with the information you need.
- 3. Phone the experts.** For key findings and insights from the survey, just pick up the phone and talk to the person who conducted the survey. A phone number is provided for every survey.

ORDER NOW!

To order your three-step solution, call **1 800 267-6677**, fax **(613) 951-1584**, or mail to Statistics Canada, Marketing Division, Publication Sales, Tunney's Pasture, Ottawa, Ontario, K1A 0T6. "Autre chose..."

J'ai reçu votre recommandation. J'ai maintenant besoin des statistiques à l'appui."

Nombre d'entre nous se sont trouvés dans cette situation plus d'une fois. Cela arrive habituellement lorsque l'on a autre chose à faire de plus pressant.

C'est pourquoi il existe le **Guide d'accès aux programmes et produits de Statistique Canada**. Ce seul ouvrage contient 550 pages de renseignements concernant 409 enquêtes et programmes statistiques couvrant pratiquement tous les sujets auxquels s'intéresse votre patron.

De l'*absence du travail* en passant par la *câblodistribution*, l'*Enquête relative aux producteurs de champignons*, l'*hébergement des voyageurs*, l'*Enquête sur le commerce de gros et les zoos*.

Voici donc la solution, en trois étapes, à votre problème:

- 1. Choisissez le sujet.** L'index complet de renvois vous dirige vers chaque enquête qui porte sur le sujet choisi.
- 2. Choisissez les enquêtes.** Assurez-vous que chaque enquête choisie répond à vos besoins. Le profil complet des enquêtes répond à toutes vos questions:
 - le type de données recueillies
 - la date à laquelle l'enquête a été menée
 - la population échantillonnée
 - la fréquence de l'enquête
 - On y trouve d'autres éléments pertinents qui vous permettront de choisir l'enquête ou le programme qui répondra le mieux à vos besoins.
- 3. Téléphonez aux experts.** Vous pouvez discuter avec la personne qui a mené l'enquête et obtenir ainsi des résultats clés et des commentaires. Pour chaque enquête, vous trouverez le nom et le numéro de téléphone d'une personne-ressource.

ENVIRONMENTAL

PERSPECTIVES

Every one is concerned about the depletion of the ozone layer, contamination of our environment with toxic wastes and the loss of species. But, how much do you really know about some of the major environmental interactions in Canada?

Statistics Canada has just released a new publication entitled *Environmental Perspectives 1993: Studies and Statistics*. Based on results of recently conducted surveys and studies, this new release is written to help you understand some of today's most topical environmental concerns. This 100-page publication explores five themes:

- industrial impacts on the environment
- agricultural land use
- household environmental behaviour
- waste management and recycling
- natural resource accounting

Its 13 chapters are filled with **in-depth analysis** which is augmented by explanatory tables and charts for easy understanding.

In this one-of-a-kind report, you will discover such provoking facts as:

- 9% (by weight) of waste collected by municipalities with a population greater than 50,000 was recycled in 1990
- only 15% of Canadian households report that at least one member uses public transit to travel to and from work
- the generation of electricity was the single largest source of greenhouse gases of all industrial activity in 1985

Environmental Perspectives (cat. no. 11-528E) costs only \$25 in Canada, US\$30 in the United States, and US\$35 in other countries.

To order a copy, please write to: Marketing Division, Publication Sales, Statistics Canada, Ottawa, Ontario, K1A 0T6. Or fax your order to (613) 951-1584. This publication is also available through your nearest Statistics Canada Reference Centre listed in this publication.

PERSPECTIVES

SUR L'ENVIRONNEMENT

Tout le monde s'inquiète de l'appauvrissement de la couche d'ozone, de la contamination de notre environnement par des déchets toxiques et de la disparition d'espèces. Mais que connaissez-vous vraiment des principales interactions environnementales au Canada?

Statistique Canada vient de faire paraître une nouvelle publication intitulée *Perspectives sur l'environnement 1993 : études et statistiques*. Cette nouvelle publication, qui tire ses résultats d'études et d'enquêtes récentes, a été rédigée pour vous aider à comprendre les questions actuelles touchant l'environnement. Cet ouvrage de 100 pages explore les cinq thèmes suivants :

- répercussions de l'industrie sur l'environnement
- utilisation des terres agricoles
- comportement des ménages et l'environnement
- gestion des déchets et recyclage
- comptabilité des ressources naturelles

Ses 13 chapitres sont remplis **d'analyses en profondeur** étayées de graphiques et de tableaux qui les rendent faciles à comprendre.

Cette publication, unique en son genre, vous fera prendre conscience de certains faits troublants, par exemple :

- En 1990, les municipalités de plus de 50 000 habitants ont recyclé 9 % du poids total des déchets recueillis;
- Seulement 15 % des ménages canadiens déclarent qu'au moins un membre de la famille utilise le transport en commun pour aller travailler;

- En 1985, la production d'électricité représentait la source principale des gaz à effet de serre pour l'ensemble de l'activité industrielle.

L'abonnement à *Perspectives sur l'environnement* (n° 11-528F au catalogue) est offert à seulement 25 \$ au Canada, 30 \$ US aux États-Unis et 35 \$ US dans les autres pays.

Pour recevoir votre exemplaire, veuillez écrire à la : Division de la commercialisation, Vente des publications, Statistique Canada, Ottawa (Ontario), K1A 0T6, ou télécopier votre commande au (613) 951-1584. Vous pouvez également vous procurer *Perspectives sur l'environnement* en communiquant avec le Centre de consultation de votre région. (La liste figure dans cette publication.)

CANADA'S ENVIRONMENT

L'ENVIRONNEMENT DU CANADA

Every day you read news items about recycling, water pollution, industrial emissions or the depletion of the ozone layer. Unfortunately, these reports are often fragmented, making it difficult to get a complete picture of Canada's physical environment.

Human Activity and the Environment is written to help you understand the links between our population, socio-economic activities and our environment. You'll see, for example, how the purple loosestrife and zebra mussels are spreading throughout inland waters and the effect they have.

CASE STUDY: A statistical profile of an Ontario river basin is also included as a case study to demonstrate how socio-economic information can be linked with physical data at a local level.

Vous lisez tous les jours des articles traitant de recyclage, de la pollution de l'eau, des émissions de gaz industriels ou de la diminution de la couche d'ozone. Malheureusement, ces rapports sont trop souvent fragmentés et il devient difficile de se faire une parfaite idée de l'environnement physique du Canada.

Activité humaine et l'environnement est écrit afin de vous aider à comprendre les liens entre notre population, nos activités socio-économiques et notre environnement. Vous verrez, par exemple, comment les salicaires et les dreissna sont réparties à travers les eaux intérieures et quels en sont leurs effets.

ÉTUDE DE CAS : un profil statistique du bassin hydrographique de l'Ontario est également présenté, comme étude de cas, en vue de montrer comment l'information socio-économique peut être mise en rapport avec les données physiques à un endroit donné.

Organized in three, easy-to-read sections: Population, Socio-Economic Systems, and Environmental Conditions, this publication examines our activities from a number of perspectives:

- resource consumption
- waste generation
- monitoring the conditions of land, water, air and living organisms

This unique bestseller highlights such fascinating details as:

- purchases of potential pollutants by Canadian households
- the importance of natural resources to the Canadian economy
- energy consumption by industry

L'ouvrage est divisé en trois parties importantes : la population, les réseaux socio-économiques et l'état de l'environnement, qui examine nos activités sous différents angles:

- la consommation des ressources naturelles
- la production des déchets
- la surveillance de l'état des terres, de l'eau, de l'air et des organismes vivants

Ce best-seller unique met en relief des détails aussi fascinants que :

- les achats de polluants potentiels par les grandes maisons canadiennes
- l'importance des ressources naturelles pour l'économie canadienne
- la consommation d'énergie par industrie

CANADA A PORTRAIT

A CELEBRATION
OF OUR GREAT NATION

UN PORTRAIT DU CANADA

POUR CÉLÉBRER LA
GRANDEUR DE NOTRE PAYS

Canada challenges the imagination. Imagine a country where Newfoundlanders live closer to Africans than they do to fellow Canadians in British Columbia. Or a country with an island that has a glacier bigger than Ireland. Imagine a country with two million lakes, and the world's longest coastline – but that shares a border with only one nation.

Statistics Canada has created the 54th edition of **Canada: A Portrait** as a celebration of our great nation. Drawn from Statistics Canada's rich palette of national data, it paints a picture of where we are socially, economically, culturally and politically.

Over 60 unique and beautiful photographs combined with lively text, provide a close-up look at the Canada of today.

Experience this land's remarkable natural regions and diverse human landscape through six chapters entitled: **This Land, The People, The Society, Arts and Leisure, The Economy, and Canada in the World.**

Eminent Canadians such as astronaut Roberta Bondar, former hockey star Jean Béliveau, and writer W.O. Mitchell have contributed their personal visions of Canada.

Canada: A Portrait is a beautiful illustration of the Canada of today.

Presented in a 30 cm X 23 cm (12 1/4" X 9") format, prestige hardcover, with over 200 pages, **Canada: A Portrait** (Catalogue No. 11-403E) is available in Canada for \$38.00 plus GST, US \$41.95 in the United States, and US \$48.95 in other countries.

To order write **Statistics Canada, Publications Sales, Ottawa, Ontario, K1A 0T6** or contact the nearest Statistics Canada Regional Reference Centre listed in this publication. For faster ordering call toll-free **1-800-267-6677** and use your VISA and MasterCard or fax your order to **(613) 951-1584**.

Le Canada est un pays qui défie l'imagination. Imaginez un pays où les Terre-Neuviens vivent plus près des Africains que de leurs compatriotes de la Colombie-Britannique. Un pays où se trouve une île sur laquelle s'étend un glacier plus grand que l'Irlande. Imaginez un pays qui compte 2 millions de lacs et le plus long littoral du monde, et pourtant un seul voisin.

Statistique Canada a créé la 54^e édition d'**Un portrait du Canada** pour célébrer la grandeur de notre pays. C'est à partir du riche éventail de données nationales de Statistique Canada que l'on a brossé ce tableau de notre situation sociale, économique, culturelle et politique.

Plus de 60 magnifiques photos, mariées à un texte vivant, offrent une vision claire et détaillée de ce qu'est le Canada d'aujourd'hui.

Découvrez les splendides régions naturelles de ce pays, de même que son paysage humain des plus diversifiés, à travers six chapitres intitulés : **Le territoire, La population, La société, Les arts et les loisirs, L'économie et Le Canada dans le monde.**

D'éminents Canadiens, tels Roberta Bondar, astronaute, Jean Béliveau, ancienne vedette de hockey, et W.O. Mitchell, écrivain, y font part de leur vision personnelle du Canada.

Un portrait du Canada... un magnifique ouvrage de collection qui décrit admirablement bien le Canada d'aujourd'hui.

Présenté dans un format de 30 cm sur 23 cm (12,25 po X 9 po), dans une couverture rigide de luxe et en plus de 200 pages, **Un portrait du Canada** (N° 11-403F au catalogue) coûte 38 \$ plus TPS au Canada, 41,95 \$ US aux États-Unis et 48,95 \$ US dans les autres pays.

Pour commander, écrivez à **Statistique Canada, Vente des publications, Ottawa (Ontario), K1A 0T6** ou communiquez avec le Centre régional de consultation de Statistique Canada le plus proche. ENVIRONMENTAL PERSPECTIVES

Every one is concerned about the depletion of the ozone layer, contamination of our environment with toxic wastes and the loss of species. But, how much do you really know about some of the major environmental interactions in Canada?

Statistics Canada has just released a new publication entitled *Environmental Perspectives 1993: Studies and Statistics*. Based on results of recently conducted surveys and studies, this new release is written to help you understand some of today's most topical environmental concerns. This 100-page publication explores five themes:

- industrial impacts on the environment
- agricultural land use
- household environmental behaviour
- waste management and recycling
- natural resource accounting

Its 13 chapters are filled with **in-depth analysis** which is augmented by explanatory tables and charts for easy understanding.

In this one-of-a-kind report, you will discover such provoking facts as:

- 9% (by weight) of waste collected by municipalities with a population greater than 50,000 was recycled in 1990
- only 15% of Canadian households report that at least one member uses public transit to travel to and from work
- the generation of electricity was the single largest source of greenhouse gases of all industrial activity in 1985

Environmental Perspectives (cat. no. 11-528E) costs only \$25 in Canada, US\$30 in the United States, and US\$35 in other countries.

PERSPECTIVES SUR L'ENVIRONNEMENT

Tout le monde s'inquiète de l'appauvrissement de la couche d'ozone, de la contamination de notre environnement par des déchets toxiques et de la disparition d'espèces. Mais que connaissez-vous vraiment des principales interactions environnementales au Canada?

Statistique Canada vient de faire paraître une nouvelle publication intitulée *Perspectives sur l'environnement 1993 : études et statistiques*. Cette nouvelle publication, qui tire ses résultats d'études et d'enquêtes récentes, a été rédigée pour vous aider à comprendre les questions actuelles touchant l'environnement. Cet ouvrage de 100 pages explore les cinq thèmes suivants :

- répercussions de l'industrie sur l'environnement
- utilisation des terres agricoles
- comportement des ménages et l'environnement
- gestion des déchets et recyclage
- comptabilité des ressources naturelles

Ses 13 chapitres sont remplis d'**analyses en profondeur** étayées de graphiques et de tableaux qui les rendent faciles à comprendre.

Cette publication, unique en son genre, vous fera prendre conscience de certains faits troublants, par exemple :

- En 1990, les municipalités de plus de 50 000 habitants ont recyclé 9 % du poids total des déchets recueillis;
- Seulement 15 % des ménages canadiens déclarent qu'au moins un membre de la famille utilise le transport en commun pour aller travailler;

- En 1985, la production d'électricité représentait la source principale des gaz à effet de serre pour l'ensemble de l'activité industrielle.

L'abonnement à *Perspectives sur l'environnement* (n° 11-528F au catalogue) est offert à seulement 25 \$ au Canada, 30 \$ US aux États-Unis et 35 \$ US dans les autres pays.

Pour recevoir votre exemplaire, veuillez écrire à la : Division de la commercialisation, Vente des publications, Statistique Canada, Ottawa (Ontario), K1A 0T6, ou télécopier votre commande au (613) 951-1584. - (1) Annual data are averages of the month estimates except for benefit weeks and claims received, where the sums are used. Another estimate of UI coverage, derived from annual tax returns filed with Revenue Canada, is also available on request.
- (1) Les données annuelles sont obtenues en calculant la moyenne des totaux mensuels sauf dans le cas du nombre de prestations et des demandes initiales et renouvelées pour lesquels on prend la somme. Une autre estimation annuelle du nombre de personnes visées par l'assurance-chômage, tirée des déclarations d'impôt de Revenu Canada, est disponible.
- (2) Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.
- (2) Comprendent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés, n'est pas compris.
- (3) Effective percentage increase in base rates at annual rates.
- (3) Augmentation effective des taux de base aux taux annuels en pourcentage.

(1) Les exportations totales comprennent les exportations nationales et les réexportations. Pour plus d'information, voir la publication Sommaire du commerce international du Canada (n° 65-001 au catalogue).

(2) The figures reflect a number of adjustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. For more information about these adjustments, please refer to Quarterly Estimates of the Canadian Balance of International Payments (Catalogue No. 67-001).

(2) Les chiffres tiennent compte d'un certain nombre d'ajustements apportés aux totaux douaniers afin de les rendre compatibles avec les concepts et les définitions utilisés dans le système des comptes nationaux. Pour plus de renseignements à propos de ces ajustements, voir la publication Estimations trimestrielles de la balance canadienne des paiements internationaux (n° 67-001 au catalogue).

(3) Sum of components do not equal total, due to balance of payments adjustments.

(3) Le total ne correspond pas à la somme des composantes en raison des ajustements de la balance des paiements.

(1) Supply and disposition for both crude oil and natural gas will not agree because of losses, inventory changes, pipeline fuel used, etc.

(1) Les ressources et les emplois du pétrole brut et du gaz naturel ne concordent pas en raison des pertes, des variations de stocks, du carburant de pipe-lines utilisé, etc.

(2) Includes crude oil, condensate and pentanes plus.

(2) Comprend le pétrole brut, les condensates et les pentanes plus.

Lone-parent families in Canada

Life in lone-parent families

The structure of family living in Canada has changed dramatically in the last several decades. The growing number of lone-parent families has been one of the most profound developments. In fact, by 1991, there were almost one million lone-parent families, representing one of every five families with children. As well, women make up the vast majority of lone parents.

Lone-parent families in Canada reports on why this situation is so important. And it reveals that many lone-parent families, especially those headed by women, are economically disadvantaged. For example, as many as three out of five of these families have incomes below Statistics Canada's Low Income Cut-offs.

Lone-parent families in Canada, describes this group of Canadians their major characteristics. With over 50 charts and tables to support the analysis, this reports covers topics such as:

- demographic and family status
- income
- labour force experience
- housing and household amenities
- time use patterns

Lone-parent families in Canada is a "must read" for everyone involved in the analysis, planning, development and delivery of social services to Canadians. And if you are concerned with issues related to family organization, low income, and the role of women in our society, this report delivers the data and analysis you need to develop informed opinions and policies about these important topics.

Les familles monoparentales au Canada

La situation des familles monoparentales

La structure de la vie familiale au Canada a beaucoup évolué depuis quelques décennies. L'un des éléments clés de cette transformation a été la hausse du nombre de familles monoparentales, à tel point qu'en 1991, on en comptait près d'un million, soit une famille sur cinq avec enfants. En outre, la vaste majorité des parents seuls sont des femmes.

Les familles monoparentales au Canada explique l'importance de la situation et révèle que beaucoup de familles monoparentales, surtout celles ayant une femme à leur tête, sont défavorisées économiquement. Par exemple, trois de ces familles sur cinq ont un revenu inférieur au seuil de faible revenu défini par Statistique Canada.

Les familles monoparentales au Canada décrit les Canadiens de ce groupe et leurs principales caractéristiques. Plus de 50 tableaux et diagrammes complètent l'analyse de divers sujets comme :

- la situation démographique et familiale
- le revenu
- l'expérience sur le marché du travail
- le logement et les éléments de confort ménagers
- l'emploi du temps

Les familles monoparentales au Canada est à lire absolument si vous analysez, planifiez, élaboriez ou fournissez des services sociaux aux Canadiens. Ou bien si vous vous intéressez à la structure familiale, au faible revenu ou au rôle des femmes dans notre société, le rapport vous fournira les données et l'analyse nécessaires pour établir des vues et des politiques éclairées sur ces sujets importants.

(1) Retail sales estimates exclude the Goods and Services Tax (GST). Prior to January 1991, sales data included the Federal Sales Tax (FST). Due to this change in indirect taxes, data for 1991 are not strictly comparable with those of previous years. For users interested in deriving comparable data, an estimate of the amount of FST included in sales for 1990 is available.

(1) Les estimations des ventes de détail excluent la taxe sur les produits et les services (TPS). Les données sur les ventes antérieures à janvier 1991 incluent la taxe de vente fédérale (TVF). Du à ce changement dans les taxes indirectes, les données pour 1991 ne sont pas tout à fait comparables à celles des années précédentes. Pour les utilisateurs intéressés à calculer des données comparables, une estimation du montant de la TVF inclus dans les ventes pour 1990 est disponible.

Recevez-vous directement vos informations sur l'économie canadienne?

Il est probable que vous passez des heures à lire plusieurs journaux et un paquet de revues pour essayer d'avoir une vue complète de la situation économique, et ensuite passer encore plus de temps à séparer le réel de ce qui ne l'est pas. Ne serait-il pas plus pratique (et beaucoup plus efficace) de remonter directement à la source?

Joignez-vous aux milliers de décideurs canadiens gagnants qui lisent *L'Observateur économique canadien* pour leur séance de rapport mensuelle. Rempli de renseignements disponibles nulle part ailleurs, l'OEC permet d'avoir une vue générale rapide et concise de l'économie canadienne. Il est inégalé par sa fiabilité et son exhaustivité.

Une seule source

Les consultations que nous avons eues avec nos nombreux lecteurs, des analystes financiers, des planificateurs, des économistes et des chefs d'entreprise, nous ont permis de présenter l'OEC dans son format actuel en deux parties, qui a été bien accueillie. La **section de l'analyse** contient des commentaires qui donnent à réfléchir sur la conjoncture économique, les problèmes, les tendances et les développements. L'**aperçu statistique** contient l'ensemble complet des chiffres réels pour les indicateurs économiques essentiels : les marchés, les prix, le commerce, la démographie, le chômage et bien d'autres encore.

Plus pratique, plus simple, plus facile à utiliser qu'auparavant, *L'Observateur économique canadien* vous offre plus de 150 pages de renseignements poussés sous une seule couverture.

Pourquoi acheter l'OEC?

Vous recevrez également un exemplaire gratuit du **Supplément statistique historique** annuel. Vous aurez ainsi devant vous soixante années de données rétrospectives et ce, à titre gracieux.

Pourquoi devez-vous donc attendre que d'autres publient les données de Statistique Canada qu'ils ont reprises alors que vous pouvez les obtenir directement à la source? Abonnez-vous à *L'Observateur économique canadien* dès aujourd'hui.
